Parts Map

Phase: Early | Goal: System overview and initial naming

A parts map gives you a visual snapshot of your internal landscape. Use this to identify which parts show up most often, where they're felt in your body, and what roles they play.

Safety Reminder:

- Work in 2-5 minute blocks. Pause if distress rises above 6/10.
- You can skip any item. This is an invitation, not an obligation.

Part 1

Part name or image:	
Age it feels:	
Role or job:	
Where felt in body:	
What it wants for me:	
What it fears would happen if it stopped:	

Part 2

Part name or image:	
Age it feels:	

Role or job:	
Where felt in body:	
What it wants for me:	
What it fears would happen if it stopped:	

Part 3

Part name or image:	
Age it feels:	
Role or job:	
Where felt in body:	
What it wants for me:	
What it fears would happen if it stopped:
